

Dear former resident: Your long-term success is very important to us at Crossroad. We hope that you benefited from your experience here and we want to continue to help you to develop your skills and fulfill your dreams by helping you continue your education.

Crossroad has many individuals through churches and in the community who donate money to support the youth in our programs. Because of their generosity, we are able to offer financial support for GED and post-high school education including technical training and college.

Our ability to provide financial assistance is yet another reminder of our commitment to you and your long term success.

There is a formal application required to access financial assistance for camps, tutoring, counseling, GED testing fees, art/music classes, technical/trade schools, or other post-high school educational opportunities.

When financial assistance is received, you have a commitment to follow through with the planned activity. Your progress and your follow through are reviewed when additional financial assistance is requested.

Please complete the attached Scholarship Request application and provide as much information as possible so that we might process your application in a timely manner. Please fill out the form and mail it to:
